

## Mikolaj Cymcyk

Third year Computer Science undergraduate at the University of Iceland

A positive, diligent, punctual, and responsible person that always thoroughly enjoys tackling new and demanding challenges and projects and is always ready to learn something new. Very organized possessing excellent communication skills as well as being fluent in English, Icelandic, and Polish with a rudimentary knowledge of Danish and German.

I have many interests, but my main hobbies revolve around cooking delicious food, computers and computer hardware, movies, computer games, and the outdoors.

## Education

### University of Iceland

2018 - 2021

#### Computer Science BS

Studied Computer Science at the University of Iceland. I've completed all 180 ECTS units with a first class grade and am currently awaiting my formal graduation which will take place in February of 2022.

### Ísafjörður Gymnasium

2015 - 2018

#### High School Diploma - Natural Sciences Program

Attended the Natural Sciences Program at the Ísafjörður Gymnasium where I received my High school diploma. I started just as the 3 year system got put in place and graduated without problem.

## Job Experience

### Icelandic Red Cross

2021 - Now

#### General Quarantine Hotel Employee

Provided care and services to individuals in quarantine and isolation in quarantine hotels who couldn't safely quarantine or isolate themselves at their place of residence and those without permanent residence in the country.

### Sæplast Iceland

2021

#### Data Analysis - Summer Intern

Designed, implemented and deployed a system used to log and analyse random production sample data for Sæplast's manufacturing plant in Dalvík.

### Íslenska Flatbakan

2019 - 2021

#### Pizzabaker, Waiter & Cashier

Performed almost all possible tasks; everything from waiting tables, servicing customers and baking pizzas to prepping and cleaning.

### Kópavogur Municipality

2019

#### Work School Team Leader

Was primarily a substitute team leader, took over other team leader's groups when they got sick or went on holiday. While few or no team leaders were unavailable I worked on other projects for the municipality.

### Melabúðin

2019

#### General Employee

Threw myself at all the tasks that needed solving; from refills in the shop, servicing customers at the register and the butcher counter to preparing hot foods.

### Vestfiskur

2015 - 2018

#### Factory Labourer

Worked on manufacturing high-quality dried fish products. Was involved in the entire process; from the receipt of raw materials and products, through production to packaging and preparation of shipments.

## Other Experience

### Nörd, Student Association of Computer Science and Software Engineering Students

#### Secretary and Vice President

2021 - Now

#### Promotional Representative

2019 - 2021

Am one of the most active members of Nörd, The Computer Science and Software Engineering student society at the University of Iceland. Through the society, I have played an important role promoting these educational fields to future students as a Promotional Representative between 2019 and 2021 and am now serving as the Secretary of the organization for the years 2021 to 2022.
