

Mikolaj Cymcyk

Software Developer

A positive, diligent, punctual, and responsible person that always thoroughly enjoys tackling new and demanding challenges and projects and is always ready to learn something new. Very organized possessing excellent communication skills as well as being fluent in English, Icelandic, and Polish with a rudimentary knowledge of Danish and German.

I have many interests, but my main hobbies revolve around cooking delicious food, computers and computer hardware, movies, computer games, and the outdoors.

Education

- University of Iceland** 2018 - 2021
Computer Science BS
Studied Computer Science at the University of Iceland. Completed all 180 ECTS units with a first class grade and graduated February 19th 2022.
- Ísafjörður Gymnasium** 2015 - 2018
High School Diploma - Natural Sciences Program
Attended the Natural Sciences Program at the Ísafjörður Gymnasium where I received my High school diploma. I started just as the 3 year system got put in place and graduated without problem.

Job Experience

- Valitor** 2022 - Now
Software Developer
I began work at Valitor shortly after graduation in March 2022 as a Software Developer in the Issuing department. My main project since i began working here has been rewriting the company's Visa and MasterCard authorization systems from COBOL to C#. I have personally been involved in designing, developing, testing and implementing these systems and have gained a lot of knowledge since I began here.
- Icelandic Red Cross** 2021 - 2022
General Quarantine Hotel Employee
Provided care and services to individuals in quarantine and isolation in quarantine hotels who couldn't safely quarantine or isolate themselves at their place of residence and those without permanent residence in the country.
- Sæplast Iceland** 2021
Data Analysis - Summer Intern
Designed, implemented and deployed a system used to log and analyse random production sample data for Sæplast's manufacturing plant in Dalvík.
- Íslenska Flatbakan** 2019 - 2021
Pizzabaker, Waiter & Cashier
Performed almost all possible tasks; everything from waiting tables, servicing customers and baking pizzas to prepping and cleaning.
- Kópavogur Municipality** 2019
Work School Team Leader
Was primarily a substitute team leader, took over other team leader's groups when they got sick or went on holiday. While few or no team leaders were unavailable I worked on other projects for the municipality.
- Vestfiskur** 2015 - 2018
Factory Labourer
Worked on manufacturing high-quality dried fish products. Was involved in the entire process; from the receipt of raw materials and products, through production to packaging and preparation of shipments.

Other Experience

- Nörd, Student Association of Computer Science and Software Engineering Students**
Secretary and Vice President 2021 - 2022
Promotional Representative 2019 - 2021
Am one of the most active members of Nörd, The Computer Science and Software Engineering student society at the University of Iceland. Through the society, I have played an important role promoting these educational fields to future students as a Promotional Representative between 2019 and 2021 and am now serving as the Secretary of the organization for the years 2021 to 2022.
- University of Iceland**
Teachers Assistant - Web Programming 2 2022
Work as a teachers assistant at the University of Iceland. The job involves teaching consultation sessions and in helping students gain a better understanding of the subject.
